RE: Clinton Street/Bond Street/Broad Street - Water Main Replacement
City of New Britain

This letter is to inform you that the New Britain Utility Division is performing work on the above referenced project starting on **August 3rd, 2020**. This work is needed to replace an old deteriorating water main within Clinton Street (from Corbin Ave to Bond St), a portion of Bond Street (from Clinton St to Broad St) and a portion of Broad Street (from Bond St to Burritt St). Please see the map on the back side of this letter for an aerial view of the entire project.

The water main being replaced is a transmission main so there will be little to no water services affected in your neighborhood. You may experience slightly discolored water, but please be reassured it is safe to use and drink.

Please expect **road closures** and **lane closures** during the duration of this project. New Britain Police will be directing traffic, performing road closures and setting up detours as needed. We have a tentative end date scheduled for **December 4th, 2020**.

Please contact me with any questions or concerns regarding this project at 860-826-3538 or by email: chris.polkowski@newbritainct.gov.

The City of New Britain would like to thank you for your cooperation during this project and would like to apologize for any inconveniences that you may experience.

Thank you,

Chris Polkowski

Christopher Polkowski
Superintendent Utility Division

cc: R. Esponda, Deputy Director of NBPW/Utilities
M. Moriarty, Director of NBPW
