### Basketball League F.A.Q.

#### How does Team Selection Work?

All participants attend team selection night if they have not participated in the division they are joining this year. Each participant will be evaluated based on skill level. After a brief skill evaluation, team coaches will meet in order to "draft" players. The idea is create a fair distribution of talent between teams. All registrants will be assigned to a team, there are no "cuts."

#### Why can't I change my child's team?

Rosters will be finalized following team placement and cannot be changed. All teams will carry a maximum of 12 participants and there will be no teams to switch them to. Team placement is also designed to allow for a competitive balance. Switching of players has in the past, lead to teams gaining an unfair advantage. This as a whole ends up being detrimental to the league. If you realize you have a conflict after you have already registered, please contact the recreation department before the start of the regular season. Any requests to move after the beginning of the regular season will not be considered.

#### Another team seems "stacked" with stronger players.

As in any sport some teams will ultimately end up being better than others. While we make as many attempts as possible to gain some parity, it is not uncommon to have teams go undefeated while other teams struggle. We do not "stack" teams with better players. We hold a draft similar to the NBA's college draft. This is typically the most efficient way to achieve parity. However, due to a number of intangibles (player improvement, coaches' ability, etc.), the parity we try to achieve may not be reflected in the final standings.

#### Why are practices so late?

We have a limited amount of gym space and availability in the winter. Gym space needs to be distributed among our 16 teams and although we typically get about 5 of the school gyms, we are only able to use those gyms 1-3 times a week. School gyms also are used for other programs in New Britain which further pushes back the start times for practices. In addition, we do try to reserve the earlier start times for our younger players.

#### My child seems more advanced than the other players in the division. Can they play in an older division?

We do not allow children to play "up". This is a recreational league, and children prefer to play with their peers and friends in their own grade. Children in younger grades also run a much higher risk of getting hurt playing with children in higher grades. For these reasons, we do not allow children to play "up" regardless of skill level.

#### Why was my child placed on the waiting list?

If your child is placed on a waitlist, it is because the registration deadline has past or the maximum amount of participants on each team have been met. Only if a current player cannot participate will we accept the application. In the past, teams have ended up with a large number of players while another team would lose players over the course of the season and end up with very few players. Not only does this cause us to lose a competitive balance among the teams, it also results in some kids getting significantly less play time than others. For these reasons, we do need to put children on waitlists.
