

CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

The City of New Britain has made substantial progress in carrying out the goals of both its Strategic Plan and Action Plan. Through the course of the year, the City focused efforts on residential rehabilitation of both homeowner and rental units. A total of 21 public services were funded, benefiting thousands of New Britain residents. These include several CDBG-CV projects to prepare for, prevent, and respond to the COVID-19 Pandemic. 281 residents received support and health services while the whole of New Britain's ADA community benefitted from accessibility improvements.

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

Within its Annual Plan, the City of New Britain identified the following priorities: Affordable Rental Housing, Affordable Homeownership Opportunities, Support Services to Homeless/At-Risk, Improve Public Facilities, Improve Infrastructure, Continuation of Public Services, Support Employment Programs, and Economic Development. Throughout the past year, the City has exceeded targeted 1,000 beneficiaries for persons assisted through public services (including support to Homeless/At-risk and Employment Programs) by an additional 378% or 3,787 residents. This was accomplished through the support of over 20 local public service providers. Programs supported range from senior transportation to medical appointments to youth employment training and teen pregnancy prevention. Neighborhood Preservation and Non-housing projects (public facilities, Infrastructure/accessibility Improvements) also exceeded the amount of targeted beneficiaries. In total, 20,190 residents (excluding projects with city-wide benefit) were benefited through a wide range of public improvements benefiting the City of New Britain.

Narrative

The City of New Britain is known for many ethnic enclave neighborhoods which support a diverse and vibrant culture. The projects funded over the past year have impacted every demographic and resulted in broad quality of life improvements for all residents of all races and ethnicities.

Table 3 - Resources Made Available

Narrative

Additional resources made available to the Department of Planning & Development in furthering programming include:

State Department of Economic and Community Development

The City is the recipient of state grant funding to assess and remediate brownfields, develop reasonable growth & transit oriented development planning, and to facilitate the redevelopment of remediated brownfields.

U.S. Department of Housing and Urban Development

The City was granted a \$5,600,000 Lead Hazard Reduction Grant in 2021 which will fund the Healthy Homes New Britain Program again for a 42 month period beginning at contract execution.

City of New Britain	98	78	City
NEIGHBORHOOD REVITALIZATION ZONES	2	22	City Neighborhood Revitalization Zones

Table 4 – Identify the geographic distribution and location of investments

Narrative

The City of New Britain is focused on Transit Oriented Development (TOD) efforts in areas where a high percentage of low-to-moderate income residents reside. Long term outcomes include increased employment, improved health and safety of residents, increased decent and affordable housing, and increase in public safety. Development of these unused and underutilized sites will help stabilize the tax

base while addressing income disparity within the city.

Therefore, most projects are City-wide. However, the Consolidated Plan mentioned Neighborhood Revitalization Zones (NRZs) where activities were most likely to take place. The plan's description of the geographic areas of entitlement provided a detailed analysis of why many projects are focused City-wide, but mainly within those tracts. During the 5-Year Consolidated Plan Needs Assessment and Market analysis, the city confirmed these areas as having the highest: unemployment rates, cases of overcrowding, cost burden, incomplete facilities; vacancy rates, poverty rates, and special needs populations.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

While it is not mandated, the city encourages matching or leveraged funds with any CDBG award it makes to any non-profit requesting funding. Organizations provide match or leveraging through existing state/federal and local assistance. CDBG is typically not the primary program/project funder. The city typically leverages \$4 for every \$1 of HUD funding.

Additional funding may come from a variety of sources that include, but are not limited to:

General Funds

Tax revenues provide funding for general City services. Many of the programs including senior services, social services, and health services described in this Consolidated Plan are supported by these funds.

Table 12 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

The City completed work on a combined 39 units of non-homeless households. This is in contrast to a set goal of 53 units. This goal was set based on an average of estimated units completed over the 5-year Consolidated Plan. The biggest shortfall of an individual goal was in Affordable Home Opportunities where zero downpayment assistance loans were given against a goal of 25. The main reason for this shortfall can be found in the historically low interest rates and hyper competitive housing market which saw home values increase and qualified homebuyers priced out of acquisition.

Discuss how these outcomes will impact future annual action plans.

The City of New Britain will revisit its program in order to improve its competitiveness with current market realities.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Narrative Information

According to the Annual Action Plan and represented in these outcomes, the city allocates funding for affordable housing with a high concentration on residents at or below 50% of AMI (93%). This is consistent with the 5-Year Consolidated Plan's analysis of the housing market issues and housing need data.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The Connecticut Coalition to End Homelessness (CCEH) organizes volunteers to assist with the Annual Point in Time Count (PIT). All applicants for federal homeless assistance grants are required by HUD to count and report the number of people experiencing homelessness in their communities on one night at the end of January. During the 2021 PIT Count, volunteers identified 83 people experiencing homelessness, with 24 being children. Of this total, 25 person was listed as "Chronically Homeless". Additionally, one homeless person had HIV/AIDS, 2 were suffering from chronic substance abuse, and 11 had been diagnosed with severe mental illness. The 2022 PIT count is yet to be made available on CCEH's website.

The City is a part of a Coordinated Access Network (CAN) that covers the region including Berlin, Bristol, Plainville, Southington, and New Britain. This centralized, collaborative approach brings many resources and assets to the table, including, but not limited to, Permanent Supportive Housing programs, Rapid Rehousing services and vouchers, Emergency Housing Assistance Fund for clients with diagnosed mental illness or co-occurring disorder, relationships with housing authorities and private landlords, and the ability to access a range of supports and services for basic needs and recovery.

According to the CAN Plan, any individuals or families with housing needs should be instructed to call the State's 211 help line. 211 will make a referral to a CAN agency, which will make an appointment for an in-depth assessment and/or case management services. However, if the call is for immediate shelter, 211 will provide instructions on how to find an emergency shelter for the night.

Community Mental Health Affiliates, Inc. (CMHA) provides permanent supportive housing vouchers and case management for persons with mental illness or co-occurring disorders. CMHA has a proven track record of successfully providing outreach to homeless persons, stabilizing them in housing and helping them access treatment through the Modified Assertive Community Treatment Team (MACTT). Funded for 5 years through a federal SAMHSA grant, when this funding ended, MACTT funding was sustained by the state (CT DMHAS) due to its high rate of efficacy. MACTT produced statistically significant improvements in mental health and client symptom severity significant improvements in social connectedness and social functioning and a decrease in psychotic symptoms. MACTT is now called Community Outreach Program for Engagement (COPE).

The Friendship Service Center provides a number of services to the At Risk and Homeless populations. Among other programs, FSC manages an outreach and engagement program to address Homelessness. Projects for Assistance to Transition from Homelessness (PATH) works to reduce barriers

to care and links people with appropriate housing and services. Case Management includes: food and nutrition; health assessment; income and Medicare; veteran issues; service homeless or those who live in a shelter; and who have severe mental illness and/or co-occurring disorders.

Addressing the emergency shelter and transitional housing needs of homeless persons

The Central CT CAN is a successful collaboration providing a multitude of coordinated resources. Provider organizations participate in meetings that provide housing placement opportunities and prioritize clients based on the VI-SPDAT score, length of homelessness, and presence of disabilities. Building Hope Together: New Britain's Workplan to End Homelessness, works closely with community members to develop programs that address community needs. There are 89 emergency shelter beds in the City, located at the Friendship Center's 241-249 Arch Street facility, at the Prudence Crandall Center, and at the Salvation Army on Franklin Sq. The emergency shelters do not receive any direct funding from HUD.

There are 34 transitional beds in the City; 15 of these beds are provided by the Friendship Service Center in their 241-247 Arch Street facility and 19 at the Prudence Crandall Center. Transitional housing provides shelter for up to two years and is accompanied by supportive social services and programs such as counseling, referral services, case management services, financial counseling, educational instruction, job skills development, etc.

Many of the homeless in the City are chronically homeless, with substance abuse problems or mental illness, and many of these people avoid shelters and facilities, only until extreme winter weather. Others are newly homeless, perhaps facing a temporary hardship. But clearly, the typical homeless person has needs which surpass those relating to shelter; and as a result, many homeless of New Britain have special needs.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

One of the major challenges to housing stability this program year was the COVID-19 Pandemic which jeopardized the income of many LMI families in New Britain. Aided by a eviction/foreclosure moratorium, the City was able to avoid mass displacement. Through the use of CDBG-CV funding the City formulated two programs designed to connect residents to COVID-relief programs. The Marketing & Education Program was the vehicle in which mass communications were made regarding local, state, and federal programs. This program also propagated important updates from Health Agencies on best practices for responding to and preventing the spread of COVID-19. The City's specifically addressed housing and at-risk families through its Eviction and Foreclosure Mediation Program which provided

mediation between landlords & tenants/homeowners & lenders. This program also connected at-risk households with established state and federal resources in a careful effort not to duplicate services. To date, 362 residents were supported through this program.

The State of Connecticut mandates that discharges from foster care, health care, mental health facilities and the Department of Corrections be done in such a way as to minimize risk of homelessness. The Continuum of Care partners ensure that the proper steps are taken with regard to discharge planning. The following narrative is from the Continuum of Care Application:

Foster Care - CT has built in an Independent Living Program that offers young people a continuum of independent living services along with specialized case management to ensure a successful transition to productive community life. The Community Housing Assistance Program provides youth aging out of Foster Care with a subsidy to cover living expenses.

Health Care - The two local hospitals, Hospital of Central Connecticut and Hospital for Special Care confirmed that current discharge practices include providing case management services. With the exception of extreme situations, local hospitals do not discharge into emergency shelters or the street.

Mental Health - CT Department of Mental Health and Addiction Services have policies in place that dictate that every attempt shall be made to verify discharge housing arrangements. Clients are not discharged into emergency shelters or the street.

Corrections - CT Department of Corrections continues to complete an Offender Accountability Plan for each inmate, program outline and expectations during the entire time of incarceration. A standardized discharge plan is completed with inmates at the end of sentence, addressing issues including housing, identification and community resource needs. In previous years, the department had significantly increased staffing and the number of halfway house beds for parole and community services and contracts for a wide range of residential services in the community.

In order to successfully break the cycle of homelessness, it is important to provide a smooth transition from professional facilities, emergency shelters and transitional housing to permanent housing. Organizations like the Friendship Service center provide case management services. Case management is provided for each resident in the emergency shelter. A Case Action Plan is developed within two weeks after arrival. Medical screening and referrals to mental health and physical health providers is provided by the Community Health Center. Adult residents are offered the opportunity to complete their education through local agencies. Residents with substance abuse problems are referred to treatment. The outreach workers also refer soup kitchen patrons who have histories of substance abuse to local treatment facilities.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that

individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The Housing Authority has been actively pursuing HUD resources that will focus on the economic advancement of its residents. It now has both a Public Housing and Housing Choice Voucher Family Self-Sufficiency Coordinator to assist residents in pursuing education, work and housing goals. The Housing Authority coordinates, promotes and provides other programs to enhance the economic and social self-sufficiency of residents. These include after school homework program, scholarship and computer programs and elderly services. Computer centers for both the elderly and family housing sites have been revamped and are now open and in use by residents. The Community Education and Training facility provides education and training opportunities for housing authority residents and Section 8 participants.

The NBHA enforces a Community Service Policy that requires residents to perform eight hours of community service a month. Through community service, the Authority hopes that its residents will be able to improve not only their lives, but also improve the surrounding community in the process.

Resident Associations continue to be organized at each of the New Britain housing projects. A Resident Advisory Board, comprised of tenants from each housing site, is actively involved with developing and approving the Housing Authority's Annual and Five-Year Plan required by HUD. The NBHA initiated a consultation process with stakeholders concerning the disposition application for the Mt. Pleasant/Bond Street redevelopment. It has been working with the Mt. Pleasant residents, assisted by CT Legal Services to start a Resident Council. Public Housing Residents were involved in the hiring of the new property manager.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

The City continues to operate a homeownership program which is available to public housing renters. The city is working with construction trade organizations and private contractors to build capacity and encourage Section 3 residents, who may be public housing residents, gain employment within the construction trade.

Actions taken to provide assistance to troubled PHAs

According to the Housing Authority, the scores for the physical condition of the housing units have recently been reduced to Standard, but they are not designated as a troubled agency.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

To mitigate the impacts of barriers associated with negative public policies, the City:

Coordinated meetings between key departments that are involved with the permit processing and planning approval processes. The initiative will work to minimize the delay in housing development in general and affordable housing development in particular.

Leveraged other funding, including HOME, the Lead Based Paint Hazard Reduction grant, State Department of Economic and Community Development. These funds provide residential rehabilitation assistance, homeownership assistance, and assist in the construction and preservation of affordable housing.

The city funds a position that deals with fair housing issues within New Britain. The employee works as a resource to connect landlords and tenants with training, education, and counseling. Furthermore, the city maintains a fair rent commission, which focuses on ensuring cost reasonableness.

A number of recommendations have also been discussed, including working with CT Fair Housing to conduct testing of sale and rental properties to identify violations of the Fair Housing Act.

Require “affirmative marketing” of all new residential developments and buildings in order to receive a building permit, zoning, or subdivision approval. This makes home seekers aware of the housing choices available to them. For the developer, affirmative marketing means taking special steps to promote traffic from particular racial or ethnic groups that are otherwise unlikely to compete for their housing.

The cost of housing in New Britain is less expensive compared to surrounding towns; it is the very-low incomes of the residents that presents the greatest housing challenge. The identified barriers to affordable housing are primarily the cost and availability of land and the cost of meeting standards and codes. The tax rate on property owners affects the cost of maintaining housing. The City is committed to preventing any tax increases that would pass on increased housing costs to renters.

The City has been submitting applications to the State of Connecticut and various other grantors in an effort to support the development of quality housing opportunities.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

New Britain is located in the geographic center of the state and is the second largest municipality in the immediate area. Hartford County is home to a broad range of individuals who hail from diverse

backgrounds in education, wealth, race and ethnicity. While the region is diverse, the community lacks adequate fiscal reserves to address the needs of many underserved residents. The City continued to support the important public service programs through the allocation and utilization of HUD funds. HUD funds to the City have been diminishing, and the Mayor has approached the State for assistance with escalating homeless needs. Social service agencies work to stretch limited funding. Many granting organizations are pursuing greater collaborative efforts in order to create impactful results. New Britain is no different, and has convened the Building Hope Together (BHT) task force as part of the New Britain Recovers Program to address the needs of homelessness and at-risk populations. The city works together with the Board of Education, Police Athletic League and multiple social service agencies to create a “net” of programming that addresses the needs of this population.

New Britain uses CDBG and HOME funds to address housing cost burden, overcrowding, energy efficiency, and code and safety issues within residential properties. Furthermore, New Britain has aggressively applied for and successfully managed funding to return unused/underutilized properties back to the market. This includes addressing environmental barriers to development through Brownfield funding. Returning these parcels to productive use will create employment, new affordable housing opportunities, address crime, poverty and stabilize the tax base.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

The City of New Britain has determined that a number of housing units currently occupied by low, very low and extremely low-income residents contain lead-based paint hazards. As such, the City was awarded \$5.6 million in Lead Hazard Reduction funding from HUD for its Healthy Homes New Britain Program. The Healthy Homes New Britain Program is an early intervention and preventative program to reduce lead hazards for low-income income children. The program will provide education to families and property owners and remove lead and other home health hazards in eligible households. This program will perform lead abatement and code improvements to a targeted 225 residential units.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The City used HUD grant funds to address crucial needs of low income or poverty-level families. The activities provided an array of services for persons struggling with the threat or reality of homelessness and aim to remedy the problems that affect employability - such problems as generational poverty and teenage pregnancy, family and health issues, language barriers and disenfranchisement.

The City has been focusing on aggressive economic development actions to rebuild downtown to attract business that will hire more workers. A large portion of downtown is being assessed for remediation to make new developable land available for business investment. Also, the City and the State have been promoting the benefits of the CT Fastrak busway that allows residents to work in out-of- town jobs. These and other planned economic development actions are anticipated to increase earnings potential of City residents and improve the City’s financial health.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

The Institutional structure through which the City carries out its housing and community development plan is made up of organizations from the public, nonprofit and private sectors, and involves public/private partnerships among many housing and social service organizations. The city took action to approve the solicitation for Community Housing Development Organizations (CHDOs).

The City continued to provide support through CDBG funds for operational costs and commitment of City staff to the Neighborhood Revitalization Zones. The NRZs are critical to neighborhood stabilization as the residents are active stakeholders. City staff provides attendees with information related to upcoming issues and is available to respond to their concerns as well as advocate for their plans.

In 2021, the City combined the following departments to improve its coordinated approach to community development: Department of City Planning, Department of Economic Development, and Department of Community Development. The new department dubbed, Department of Planning & Development, utilizes a comprehensive approach to improve economic opportunities, quality of life, and municipal development throughout the City of New Britain.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

Various collaboratives continued to operate this year to address homelessness issues: the Continuum of Care for New Britain, the Central Connecticut Coordinated Access Network, and the Mayor's Building Hope Together (BHT) Task Force are key to enhanced coordination. BHT includes the primary homeless providers as well City departments, the Hospital, the Housing Authority, Board of Education and CCSU, community foundations and many collaborating business stakeholders including the Chamber of Commerce, Okay Industries, and the Capital Workforce Partners. In 2021, the City launched New Britain Recovers which will receive ESG funding to support local emergency shelters and perform homelessness prevention programming.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

There is currently a high demand for housing for people with disabilities. This need is seen mostly in the demand for rental housing outside of the New Britain Housing Authority. Additionally, senior housing has seen a large uptick in demand. The City has had preliminary conversations with owners of former parochial schools and large one-story buildings to gauge interest in conversion to senior or disability-accommodating rental units.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

Agreements with City Departments and Subrecipient Contracts with non-profit agencies contain requirements for project management and compliance with HUD and OMB laws and regulations. The DPD monitors subrecipients through review of budgets, audits, requests for payments, Quarterly Financial Reports and Quarterly Program Benefit Reports and performs periodic on-site monitoring reviews. The DPD enforces long-term requirements such as affordability of units through deed restriction. DPD staff also performs construction inspections and contract compliance functions.

All activities submitted for funding consideration are reviewed for consistency with HUD requirements and the City's goals and objectives set forth in its Consolidated Plan. Once the activities are funded, if they are not meeting their goals and objectives, actions are taken to remedy the causes or the funds are reprogrammed to other eligible activities. In the event of timeliness concerns, the subrecipient will be placed on a performance improvement plan in order to remedy such concerns, including a work-out schedule starting from an end date to achieve compliance with revised benchmarks.

The priorities set forth in the five-year Consolidated Plan guide the selection and ranking of activities identified in the Annual Plan. Performance in meeting the goals is evaluated during preparation of the Annual Consolidated Plans and the Consolidated Annual Performance Reports. When accomplishments are higher or lower than the annualized goals, the five-year goals are adjusted or the activities are examined to identify problems and determine ways to improve performance.

All recipients of funds are subject to minority business as well as Section 3 outreach. This includes signing a Section 3 Certification which states the purpose and requirements of Section 3. Advertising of opportunities are in locations that increase likelihood for minority contractors to apply (public housing authority, City/State procurement websites, ESL programs, and Lead Based Paint certification trainings). In the event an unfair ratio of non-minority business owners were not responding to and/or winning bids, this office would implement requirements to ensure such contractors were fairly represented in the process. This may include additional statements promoting preference for and/or encouraging WBE/MBEs to apply.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

Notice of the availability of the Consolidated Annual Performance and Evaluation Report was published in the New Britain Herald and distributed to public places on September 15, 2022. It was available for comment for 15-days. No comments were received.

The CAPER for the 2021-2022 period will also be available at the next Annual Action Plan Public Hearing for the 2021 funding year.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

Objectives remained the same during the program year, with the exception of non-substantial amendments. The city used Program Income, recaptured funds, monies returned to fund balance as a result of projects being under budget, and/or contingency funds to address CDBG eligible community needs. These included ADA improvements to the Library facility which houses public service operations; addressing property maintenance code and life/safety issues through the existing Clean and Lien program; and park improvements to enhance outdoor recreation assets in LMI neighborhoods during the pandemic.

In retrospect, many sub-recipients offered recommendations on how they would consider changes to their programs in order to improve jurisdictional impacts. These included cross-collaborations with organizations that could provide supplementing programs. The internal discussion would be for the City to facilitate a conversation among applicants prior to funding rounds beginning.

This program year, New Britain faced many challenges as a result of the COVID-19 Pandemic – as a result, the City utilized CDBG-CV money to provide many city-wide benefits aimed at protecting the most vulnerable residents. Through CDBG-CV the City developed programs that support that strengthen food resource distribution, domestic violence prevention, emergency medical service capability, the continuation of public service programs through facilities/PPE improvements, and public health information programs.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-50 - HOME 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

The following properties were inspected for health & safety standards. Unless otherwise noted, the property passed with no issues: 17 Dwight St.- 4/1/22, 54-56 Cabot St.-3/21/22, 37 Bingham St.- 5/2/22, 97 Beaver St.-3/11/22, 18 Miller St.-3/28/22, 147 Broad St.-3/2/22, 55 West Main St.-3/28/22, 594 Burritt St.-3/31/22, 314 Osgood Ave.-3/24/22, 85 Arch St.-3/24/22, 2380 Corbin Ave.-3/21/22, 50 High St.-3/9/22 (2 units), 232 Arch St.-3/29/22 (2 units), 37 Gladiola St.-3/29/22, 109 Charles St.-7/8/22, 159 Miller St.- 3/8/22, 144 Winthrop St.-6/14/22, 48-50 Garden St.-6/7/22, 68 Booth St.-3/9/22, 161 Broad St.-3/22/22, 57 Court St.-4/22/22. Coordination of inspections are ongoing with the owners for 73 Dwight St., 157 Broad St., and 161 Broad St. The City of New Britain conducts inspections on all units for which an inspection is required. Inspections are completed by Anthony Bianca the departments Project Coordinator on a regularly scheduled basis.

Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 92.351(b)

The City of New Britain has adopted a Statement of Policy and Procedures for Affirmative Marketing to provide information and otherwise attract eligible persons from all racial, ethnic, and gender groups in the housing market area to HOME-assisted housing containing five or more housing units. The Statement includes: methods for informing the general public, owners and potential tenants and home purchasers about Federal Fair Housing laws and affirmative marketing policy; requirements and practices each owner must adhere to in order to carry out affirmative marketing procedures and requirements; procedures to be used by owners to inform and solicit applications from persons in the housing market area who are not likely to apply for to apply for the housing without special outreach; recordkeeping; and assessment of efforts and corrective actions.

In implementing its Affirmative Marketing Policy and Procedures, the City will advertise units made available with assistance under the HOME Program, in housing containing 5 or more housing units. Advertisements will be placed in The Herald, as well as a Polish newspaper and a Spanish newspaper, and will include the Equal Housing Opportunity logo. Sub-recipient nonprofit organizations will also be required to comply with the Affirmative Marketing policies and procedures in the implementation of HOME assisted housing activities.

With the City's HOP (Homeownership Program) homebuyer assistance program, the City emphasized

fair housing requirements in its guidelines and all informational materials. The City is working with all non-profit service providers, including the Spanish Speaking Center and the Human Resources Agency, to participate.

Also the City's Affirmative Marketing Policy is made a part of sub-recipient and developer contracts. When the project developer begins taking applications for resident, the developer's compliance with these requirements will be monitored.

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

\$102,873.94 in program income was used for projects this year for four activities. Program income funds were as follows:

11. Project Outcomes Data measured under the performance standards developed in consultation with the CoC(s)

Consultation with the CoC determined that Rapid Rehousing and Homelessness Prevention were the two most critical funding targets for the City of New Britain. As 2021 ESG funding was not anticipated by the City or HUD due to a seven-year hiatus – the number of applications received limited the City’s funding capabilities to a single awardee, New Britain Recovers. New Britain Recovers’ program has two components: Homelessness Prevention and Emergency Shelter (through a partnership with the Friendship Service Center). At the time of this CAPER, the Emergency Shelter Improvements had yet to begin in earnest. Two residents were provided financial assistance via the homelessness prevention component.

Preseason rest led to Week 1 rust for quarterbacks

BY JOSH DUBOW
ASSOCIATED PRESS

Preseason rest appeared to lead to a little bit of rust in Week 1 for several of the NFL's top quarterbacks.

More than one-third of the league's Week 1 starting quarterbacks didn't play a single snap in the preseason and most of those 11 QBs didn't play anywhere close to their usual form.

Whether the poor results were a result of rust or other factors isn't clear but the poor results are. The only QBs to rest the entire preseason and end up on the winning side in Week 1 were Minnesota's Kirk Cousins, Justin Herbert of the Chargers and Baltimore's Lamar Jackson.

Cousins and Herbert bested two other quarterbacks who rested with the Vikings by beating Aaron Rodgers and

Green Bay and the Chargers knocking off Derek Carr and the Raiders.

The other resting QBs who lost in Week 1 were Matthew Stafford of the Rams, Arizona's Kyler Murray, Dallas' Dak Prescott, Denver's Russell Wilson, Cincinnati's Joe Burrow and Tennessee's Ryan Tannehill.

The 11 QBs combined for an 86.1 passer rating, 6.9 yards per attempt and a touchdown to interception ratio of 1.38.

Those were steep drop-offs from 2021 numbers when those QBs posted a 100.4 rating, averaged 7.7 yards per attempt and had a 2.65 TD to INT ratio.

SUPER BOWL HANGOVER

The Super Bowl teams from last season got off to a not-so-super start to 2022.

Bengals quarterback Joe Burrow pauses between plays. AP

The defending champion Los Angeles Rams lost the opener 31-10 to Buffalo and the runner-up Cincinnati Bengals fell 23-20 in overtime to Pittsburgh.

It marked the first time since 1999 when Denver and Atlanta both lost the open-

er that the two Super Bowl teams began the next season 0-1.

The only other times that happened were: 1996 (Dallas and Pittsburgh), 1988 (Washington and Denver) and 1985 (San Francisco and Miami).

WINNING TIME

The Giants comeback win at Tennessee left New York in unfamiliar territory.

For the first time since the end of the 2016 season, the Giants have a winning record. They had lost the opener each season since then and never recovered as their 22-59 record (.272 winning percentage) was tied with the Jets for the worst in the NFL from 2017-21.

Cleveland also did something new, beating Carolina 26-24 to win the season opener for the first time since 2004.

The Browns were 0-16-1 in Week 1 from 2005-21 — the longest Week 1 winless streak in NFL history.

Indianapolis ended an eight-year Week 1 losing streak with a 20-20 tie at Houston. But the Colts'

nine straight openers without a win are now tied with Washington (1959-67) and Philadelphia (1968-1976) for the second longest streak in NFL history.

CLOSE CALLS

The bizarre ending to Denver's 17-16 loss at Seattle on Monday night was the seventh game decided by three points or fewer last week, including the Indianapolis-Houston tie.

That's the most Week 1 games ever decided by three points or fewer, topping the six close games done five times previously — most recently in 2016.

Five games were decided by a game-winning score in the final 2 minutes of regulation or in overtime, the most in Week 1 since there were six in 2002.

'Thursday Night Football': Where to find Prime Video games

BY JOE REEDY
ASSOCIATED PRESS

Thursday night's game between the Los Angeles Chargers and Kansas City Chiefs kicks off Amazon Prime Video's 11-year agreement with the NFL to carry "Thursday Night Football".

Here's what we know about the easiest way to find the games each week as well as why the NFL is entering the streaming universe:

HOW DO I FIND NFL GAMES STREAMED BY AMAZON?

The main complaint after Prime Video aired a Saturday afternoon game between the San Francisco 49ers and Arizona Cardinals in 2020 was that hardly anyone knew how to access it.

Both the NFL and Amazon have tried to solve that with an aggressive promotional campaign.

For most viewers, the Prime Video app on televisions, phones and tablets or Amazon.com on computers will be their way to see it.

Games will be available on stations in the markets of the participating teams, which is the same policy for games carried on ESPN and NFL Network.

Bars, restaurants and hotels will also be able to access the games through a deal with DirecTV.

WHY DID THE NFL SELL A STREAMING PACKAGE?

The \$1.2 billion per year the NFL is getting from Amazon for 15 Thursday

night games is 80% more than it was receiving from Fox, which carried most of the Thursday night matchups for four seasons.

Fox, NBC and CBS had all carried games on Thursday night since 2014, but for the most part were losing money.

Since it is a short turnaround, the most times a team will play on Thursday night is twice, and that is usually because they were involved in the

Week 1 Kickoff Game or Thanksgiving. That often makes finding appealing matchups difficult, especially when there are two other prime-time packages to schedule.

The league though does see streaming as another transition in how games are viewed, much as it was with cable in the 1980s and satellite television in the 1990s.

"Over the last five years we have started the migration to streaming. This

is another large step in this direction," said New England Patriots owner Robert Kraft, chairman of the league's media committee, when the deal was announced last year. "Our fans want this option and understand streaming is the future."

"We have created a unique hybrid of viewing options and streaming. This should provide a smooth transition to the future of content distribution."
